

Storage Guidelines

Technology / Service	Data class: Public	Data class: Internal	Data class: Confidential	Data class: Sensitive	Typical size limitation	Authentication	Support	Pros	Cons	Backup	Storage encryption (data at rest)	Traffic encryption (data in transit)	Access logging
 AAU10 or ADMINISTRATIV10	Yes	Yes	Yes	Yes, if protocol is followed	4 TB	AAU Credentials	AAU ITS	Fast, simple, direct, and offline	Requires VPN for backup and sync	60 Days, by default	Yes	Yes, but there is file synchronization without encryption on AAU's local network by default	Optional
 Unmanaged Local Storage, BASIS PC or LAB PC	Yes	Yes, if protocol is followed	Yes, if protocol is followed	No	4 TB	N/A	AAU ITS	Fast, simple, direct and offline	Limited accessibility	No	Yes, if protocol is followed	Yes, if protocol is followed	No
 AAU ITS Managed Shared Storage / Fileshares	Yes	Yes	Yes, if protocol is followed	Yes, if protocol is followed	5 TB	AAU Credentials	AAU ITS	Fast, internal sharing possible	Requires AAU credentials. Requires internet access.	60 Days	Yes, if protocol is followed	Yes, if protocol is followed	Optional
 Email	Yes	Yes	Yes, if protocol is followed	Yes, if protocol is followed	50 MB	AAU Credentials	AAU ITS			60 Days	Yes, if protocol is followed	Yes, if protocol is followed	Contact ITS
 OneDrive cloud	Yes	Yes	No	No	5 TB	AAU Credentials	AAU ITS	Internal and external sharing possible		93 Days	Contact ITS	Yes, TLS	Contact ITS
 Office365 SharePoint Cloud	Yes	Yes	No	No	Contact ITS	AAU Credentials	AAU ITS	Internal and external sharing possible		Only recycle bin	Contact ITS	Yes, TLS	Contact ITS
 AAU ITS managed REDcap	Yes	Yes	Yes	Yes	∞	AAU Credentials	AAU ITS			14 Days	Yes	Yes	Yes
 sciencedata.dk	Yes	Yes, if protocol is followed	Yes, if protocol is followed	Yes, if protocol is followed	170 GB	AAU Credentials	DeiC	Suitable for large amounts of data. Internal and external sharing possible		No	Yes, if protocol is followed	Yes, TLS	No
 DeiC filesender.deic.dk	Yes	Yes, if protocol is followed	Yes, if protocol is followed	Yes, if protocol is followed	5 TB	AAU Credentials	DeiC	Suitable for huge amounts of data. Internal and external sharing possible	Encryption is not enforced when sharing links	No	Yes, if protocol is followed	Yes, TLS	No
 AAU ITS managed Workzone	Yes	Yes	Yes, if protocol is followed	Yes, if protocol is followed	∞	AAU Credentials	AAU ITS			60 Days	No	Yes	Yes
 AAU ITS managed Git or SVN	Yes	Yes	No	No	10 GB	AAU Credentials	AAU ITS	Great version control	Not suited for all types of data	No	No	Yes, TLS or SSH	No
 AAU ITS Managed Virtual Environments	Yes	Yes, if protocol is followed	Yes, if protocol is followed	Yes, if protocol is followed	100 GB	AAU Credentials	AAU ITS	User has control	User has control	60 Days	Yes, if protocol is followed	Independent	Optional
 Third Party Web Services	Yes	No	No	No	Independent	Independent	Independent			Independent	Independent	Independent	Independent
